

BRUSH COLLECTION/MULCH

The PLPOA provides a brush collection area for property owners doing wildfire fuel reduction on their property and is a free service to our members. We can accept brush, limbs or trees up to eight inches in diameter. We cannot accept pine needles, raked leaves or any kind of yard waste.

The brush is then chipped and piled as available mulch for anyone needing these materials on their property. The brush collection area is located at our shop facility at 79 Sam Houston Boulevard, near the parking lot.
