DEPARTMENT OF PROPERTY AND ENVIRONMENT OCTOBER, 2023 BOARD REPORT By Larry D. Lynch

- 1. Lakes and Fisheries The lakes are generally down a few feet heading into the fall, Hatcher Lake is approaching 5 feet below spill due to heavy water demand on the community over the summer and the lower lakes are down a couple feet as due to some repairs to the road culvert that the Linn and Clark Ditch utilizes for Steven Lake water into Lake Pagosa. The Linn and Clark dich is back up and functioning now and the lower lakes should fill in the coming weeks. The fishing has been improving over the past couple of weeks as water temperatures continue to drop, anglers reporting good success on trout, bass and crappie. We will be stoking the lakes on October 7th with 5000 pounds of 12-16 inch rainbow trout which should make for some great fall fishing. The 2 vaulted restrooms at Hatcher and Lake Pagosa are complete and open for business. We will be servicing and testing lake aeration systems this month in preparation for colder weather.
- 2. DPE Projects the DPE crew has been busy the past few weeks on a number of projects including continued chipping operations at the shop; work on mailbox installations at Highland Park location; work on the dams to prepare for annual state dam inspections; lawn and landscape work, some projects at the community garden. Upcoming October projects will include some painting and staining at the shop; repair work to the Lake Pagosa floating dock, additional mailbox installations in Vista; removing a couple of large hazard trees in a couple greenbelt locations; boat ramp gravel repairs; fall grass seeding at the dog park, Lake Forest north end, and Tracts A and B in Northshore cir; final lawn and grounds work and irrigation winterization at facilities.
- 3. **Greenbelt Fire Mitigation Work** -The contractor has finished work on the greenbelt thinning projects this year and they look good. Several hundred trees were removed from Tract F in Martinez Mt II in addition to heavy brush mastication, the 40 acre tract on large Hillside below Piedra Road. Two additional, smaller treatment areas were added to that project as well, covered under the cost assistance grant and work is now complete. The work on greenbelts in Pagosa Highlands was completed in July. The contractors utilized a combination of handwork, a medium sized brush mastication machine for oak brush and a mobile chipper, it's really a striking difference between before and after. The work should go a long way in helping to protect homes and properties in these neighborhoods. The Forest Service also completed a large brush mastication project on their side of the fence near Pagosa Highlands in Turkey Springs which looks great, there are several spots where you can see our work and then look over the fence and see theirs, protecting that entire important boundary zone area.

- 4. **Community Garden** The garden was a definite success this year, the growers had a good year with a lot of nice produce. We did have some issues with the lake irrigation system late in September, toward the end of the season where the lake level came down to a point that there was no water in the intake vault. We will work to see if we can deepen that vault a bit next season, but we are on bedrock at that locations so we will see. We will be winterizing irrigation systems this month and looking forward to some improvements and growing next year.
- 5. DPE Continuing Education We will be looking at some continuing education this fall for the department. Joseph will be planning to get his Aquatic Facility Operator license renewed this fall, a 2 day course in Denver required every 3 years, he may work it in conjunction with Ryan. I will be needing to get some CEU credits this fall for my aquatic and terrestrial pesticide applicators license through the State and will be looking at different possibilities for locations, I may be able to find something a little closer as far as venues and locations. We may also look for some International Society of Arboriculture programming for Don Sinkey this winter for his arborist license. Don Walsh took a course in Durango this past spring to keep his Electrician license current.

Pagosa Lakes Property Owners Association Regular Board of Directors Meeting Recreation Center Report

Manager's Summary:

- I have recently met with the rec committee. We discussed the new multi-purpose field and all we all agree that it should be a turf field. Especially after this summer with the small amount of rain we received. We had also discussed starting the after-school program. I'm trying to see if it's possible to rent a room or some space from the church next door.
- After doing a breakdown of memberships, we will introduce a threemonth option. There will be a family three month, couples three month and an individual three-month option.
- Starting 2024, we will no longer have a six-month option.
- I have certified and recertified our front desk staff with CPR. I will be certifying the admin building when Allen gets the schedule figured out.
- I will be working on Water Safety Tech. Meaning; I can certify swim instructors instead of sending them to Durango.

Maintenance/Supervision:

- Chris repaired and patched a hole in the rec center floor. Some dropped a kettle bell and it went through.
- Were in the process of changing out our sprinkler covers in the racquetball courts. The fire department would like to charge us \$5,600 to replace or current sprinklers and covers. However, we feel with the current changes we are making, there should be no issue.
- The pool has cleared up but we are still running into small issues. However, it has been running okay.
- Continued preventative maintenance on all weight and cardio equipment is ongoing.

Programs:

- Fall swim lessons have come to an end. We had a great turnout. All levels pretty much maxed out.
- We have started two new fitness classes. We have added an early morning spin class on Tuesdays and Thursdays. Also, we have added a Thursday evening bootcamp class.
- We will be offering beginner X County Skiing this winter. I'm in need a snowmobile to groom the course.
- I will be starting a new program called, Swim Team Prep. This program is for kids who can swim but need some help with strokes and learning how to read workouts.
- The high school swim team has begun practicing a few days out of the week. In November they will be practicing four days out of the week.
- I have reached out to a few martial arts instructors to see if they would want to use the aerobics room for any classes.
- I'm am looking into a self defense class.

September 2023, Department of Community Standards Report

By Keith Cramer

- There are 391 open violations, as of October 4th.
- We have opened 29 & closed 15 violations this past month. Compliance has been achieved.
- There are 281 current open project permits as of October 4th.
- There were 17 Short Term Rental applications submitted since September 7th.
 - -0 new owners of existing Short Term Rental properties.
 - -13 annual renewals of existing registered STR properties.

-4 new registrations of STR properties not previously registered.

Current Violations as of October 4th, 2023

Minutes of the Lakes and Fisheries Committee Meeting Tuesday, September 19, 2023

The meeting was called to order at 4 pm by Roger Flynn, committee chair. Present were committee members Mr. Flynn, Larry Gwaltney, Joe Margraf and Don Collins. Staff present was Larry Lynch, DPE manager.

The committee discussed a possible fishing permit fee increase for 2023. Lynch provided some historical fish costs that the Association has paid for stocking the lakes, specifically for trout where in 2000 the Association was paying \$2.10 per pound for rainbow trout; in 2019 the Association paid \$4.15 per pound for trout and in 2022 and 2023 the Association is paying \$6.00 per pound for rainbow trout. The committee agreed that it was important to provide quality fishing experience for anglers and that a fishing permit fee increase would be recommended. The committee also discussed the possibility of reducing the daily bag limit from 3 trout per day to 2 trout. After discussion Larry Gwaltney made a motion to recommend to the board of directors the fishing permit fee be increased by essentially \$10 and that the daily bag limit should remain the same for now; specifically that the individual seasonal permit go from \$40 to \$50; the weekly permit go from \$20 to \$30; Short Term Rental Weekly permit go from \$40 to \$50; the weekly sponsored guest permit go from \$25 to \$35; and that the Family seasonal permit go from \$85 to \$105. The motion was seconded by Don Collins and approved unanimously by the committee.

The next item discussed was the ProCellaCOR aquatic weed control application by Solitude Lake Management at Hatcher Lake in 2021 and 2022. Roger had a concern that the treatment had reduced the aquatic vegetation to a point that it could be affecting bug hatches in the lake. Lynch stated that the treatment had essentially eliminated the growth of milfoil in the lake the last 2 years, which had become a recreational and access concern in the lake due to heavy mats of vegetation in the shallows and coves. But, agreed that it would be best to watch the lake closely for a year or two and see what percentage of the vegetation returns and to monitor fish health. It appears that the fish in the lake are healthy and good weight and size. No plans to treat the lake next year are in the works.

Lynch updated the committee on 2023 Capital improvement projects including updates on the installation on the two committee recommended Vaulted restroom buildings at Lake Pagosa and Hatcher Lake were installed earlier in the month and were awaiting final inspections, anticipated that they would be open for use within the week.

The committee received a summary of the fall fish stocking plan and schedule, early October for approximately 5000 lbs of 12-16 rainbow trout to be stocked in the lakes. The committee was looking forward to some great fall fishing. The meeting was adjourned at 5:30 p.m.

Minutes of the Parks, Trails and Outdoor Recreation Committee

Wednesday, September 20, 2023

The meeting was called to order at 2 pm by Kurt Raymond, Committee Chair. Present were committee members Mr. Raymond, Lisa Foss, Russ Durrer, Ken Wilbert, Dennis Medina and Board liaison Patrick Moore. Staff present was Allen Roth and Larry Lynch.

The first item was an update on the Northlake Trail. Allen briefed the committee on progress, stating that the trail was nearly half completed and that the contractors should be done sometime next month. Allen also stated that he had spoken with the contractors about their new road machine which can lay gravel or asphalt down to a width of one-foot. The contractors stated that they could easily pave the new 4-foot gravel trail. The committee agreed that it would be worth looking to pave any of the 4-foot gravel trails in the future including the Hatcher area trail. Another advantage to this would be that the trails could be potentially cleared in the wintertime.

The committee then continued on-going discussions of the long range parks and trails capital improvement projects. Allen updated the committee on the current working capital projects timeline in the budget including the North Pagosa Trail extension to Aspenglow in 2027, the Park Avenue trail extension to Holiday in 2028; the Vista Gas Line trail in 2025. These projects align pretty closely to the committee recommended project priorities. The committee agreed to continue working toward project reviews and priorities including new proposed projects and to work toward updating the 2013 Master Plan.

Lynch gave the committee an overview reminder of the Vista gas line trail, part of the 2013 Master Plan and next up on the long range capital budget in 2025, stating that the proposed trail would connect to the Vista Lake trail and then wind through and down to the large greenbelt in Trails subdivision, up through the high pressure natural gas easement and back into the Vista area. The committee asked if this trail could be connected over to the Chris Mt II area and Lynch said it could pretty easily.

Lynch also gave the committee an update on the greenbelt wildfire mitigation work, a summary of the large greenbelt thinned in Highland Estates, Twincreek and Martinez Mt II (the large 40 acre tract). The thinning projects are a huge improvement to the greenbelts and could result in better future recreational access, trails or parks. The committee agreed to continue working on exploring future recreational opportunities in the greenbelts. The committee had toured a number of the greenbelts earlier this spring on a field trip and agreed that another tour this fall or next spring would be recommended.

The meeting was adjourned at 3:15.

PLPOA 2024 Operating, Reserve & Capital Budget

First Draft Review

October 12, 2023

By: Allen Roth, General Manager

We started working on the budget the beginning of September after the August 2023 financial statements were completed. Each Department Manager builds each line item from zero, taking into consideration a 3–5-year trend and projected cost increases for items such as equipment, janitorial expenses and other supply items. We also identify extraordinary expenses from previous years and not include them and add any new expenses that will be atypical for 2024 such as the HB 1137 delinquent account notification requirements. Each Manager reviews their budget with me for any changes, additions or subtractions. I compile all their information onto one spreadsheet provided by the Comptroller and make necessary changes in order to balance the budget. I then turn over the budget to the Comptroller and work with her for final compiling and review. The budget will be presented to the Finance Committee for review on September 28 and the Board of Directors on October 12.

The 2024 budget is centered upon keeping expenses in-line, especially with inflation and meeting the amount of funds to be transferred into the two reserve funds and the capital improvement fund. These fund transfers are set according to the Reserve Study and the Capital Improvement Funding Plan. The Capital Improvement Plan was approved at the September 14 meeting. A Reserve Fund Update was approved at this meeting as well for an increase of \$15 in dues assessments to cover the unbudgeted RU replacement project at the pool. It is extremely important to keep the Reserve Fund balance in good order to fund scheduled replacement projects in the reserve study or unexpected expenses that may arise.

The 2024 draft budget shows an increase of 7.9% in total operations expenses at \$208,388 compared to the 2023 fiscal year budget. Last Fiscal year's increase in expenses was 8.4%. The budget reflects the same increase of total operations revenue at \$208,388 as well. The proposed budget for 2024 increases the dues assessments from \$300 to \$325.

One challenge to this year's budget is projecting the continued impact of inflation. Although increases are not near 2023, we are still feeling the rising costs. According to the US Bureau of Labor Statistics, the all-items index increased 3.7% over the last 12 months. Specific items such as food rose 4.3%, shelter 7.3%, services 5.9% and apparel 3.1%. Gasoline has now increased over 10% in the past month. The Social Security COLA is now expected to rise to an 3.2% increase for 2024.

Beginning with the revenue side of this budget, we are proposing an increase on all fees. These fees have not been increased since before COVID in 2020. Since this time, we have seen rapid increase in inflation, but have not adjusted our fees to assist with offsetting the rising costs.

This budget includes a tab in the document listing all the fees and the projected increases. The total projected increase amounts to \$119,731. However, despite some of the fee increases, we are anticipating a drop-off in participation which will negate some of the increase. One example is that conveyances will continue to be low due to the increased interest rates and the market slowing. Also, we are seeing a trend and projecting a drop-off in the number of permits. Fishing and boating fees will increase revenue, but this will assist with offsetting the rising stocking fees. So, the stocking expense line item shows a \$16,813 increase. The Recreation Center is budgeted with a 20% increase in membership fees to assist in revenue. Last year, the increase was reduced to only 5%. Wyndham did not receive an increase in their Rec Center fees last year, so this year we are proposing a 15% increase. Wyndham's attendance at the Rec Center this year jumped 25%.

So, the 2024 budget is dependent upon the dues increase of \$25.00 to offset the expenses. We are budgeting for an increase of STR's to 400. The STR's will pay a 3x multiplier the same as time shares accounting for \$260,000. However, PLPOA continues to lose lots counted for assessment purposes due to the consolidation of lots. The Association lost another 32 lots bringing the total down to 6,005 for 2024. Even though there is a lot consolidation fee, it puts additional pressure on us to control costs to keep the annual assessments in line. The lot consolidation fees are only one time and not guaranteed each year.

In the Administrative Services income, you will notice that we are accounting for a \$125,000 carry forward. We would use the \$75,000 carry forward budgeted in 2023 with additional \$50,000 surplus from the 2023 fiscal year to move into the 2024 fiscal year. The \$75,000 carry forward from 2023 will not be included in the projected 2023 net income. Also, the amounts for delinquent fees required by HB 1137 were not as high as anticipated and have been lowered. This will also be reflected on the expense side.

On the expense side of the budget, the \$25 dues assessment increase is attributed to a \$15 increase for the reserve fund transfer. This amounts to \$116,805 in addition to the already scheduled \$16,500 in the reserve study. This totals to \$133,305 of additional funds being transferred into the reserves. The remaining increase is to cover the rising operational costs. This is mainly attributed to insurance, utilities, staff salaries and wages, and supplies and services. Health insurance costs are expected to rise 13%. Electric is scheduled for a 6.2% increase with waste disposal at 2.5%, and gasoline prices continue to stay high. Staff salaries and wages are budgeted for a 4% increase keeping with the COLA. Factors impacting wages is the minimum wage is planned to increase to \$14.42. This forces us to continue to increase part-time wages to stay ahead of the minimum wage. Locally the demand for employees has become competitive increasing wages to be able to obtain and retain staff. As we have seen in our personal lives, goods and services have increased dramatically, whether it be gas, food, housing, construction materials, or dining out. PLPOA is not different in facing the rising costs to provide maintenance and services to the owners of Pagosa Lakes.

The largest expense increase is benefits. We are anticipating a 13% increase in health insurance which may change in October with more definite rates for 2024. This year is our third different insurance provider in three years. We continue to shop around for better rates while continuing the same level of benefits. However, due to our rural location, we are more limited in providers. The retirement fund expense is increasing by \$9,000 due to switching to a new provider Paylease. The switch in providers was presented to the Board earlier this year and approved.

Community Enhancement fees will increase 40%. This is due to the continue increase of the pine needle pick-up program. Also, fees and usage are going up for the spring and fall dumpster program. As previously mentioned, the costs for stocking the lakes have risen for us to increase the fish stocking amount by \$16,813. You will see other large increases in the utility section of the budget and the Recreation Center's building maintenance and pool maintenance. Equipment and supplies continue to increase for maintenance.

Something else to keep in-mind regarding expenses is that over the past 5 years, PLPOA has averaged an increase of over 70 new homes. This does not provide any additional dues, just additional use of amenities and services resulting in higher costs to the Association. COVID has also brought a lot of second-home owners to Pagosa to live here full-time.

As previously mentioned, inflation has impacted costs on all items. As you review the budget line items, you will see increases on most of the line items. In order to keep-up with properly maintaining our common area facilities and providing services, we have to keep up with the costs associated with them the same as any business.

The updated Reserves Study and the Capital Improvement Funding Plan, have both been approved at the September board meeting. The transfer amount into the Capital Improvement Funds remains the same as indicated in the plan. The Reserve Budget includes two separate funds. They are the General Reserve Fund and the Trails Maintenance Fund.

The budget is based on the Reserve Study Plan and the Capital Improvement Funding Plan regarding the transfer amounts from operating into these funds. As previously stated, according to the updated Reserve Study an increase of \$16,500 is recommended to be transferred into the Reserve Fund. With the Reserve Study Update, an additional increase of \$116,805 is scheduled to be transferred as well making the total budget transfer amount to \$499,305. The Reserve Study had to be updated due to the unexpected need for the replacement of the RU system in the Recreation Center. The Reserve Study scheduled the replacement of this unit for 2028 and only at \$136,737. The estimated cost for the project is at around \$700,000. The concern is if the Association have enough funds proceeding into the years ahead to complete the recommended list of maintenance and replacements in the Reserve Study.

In the 2024 budget spreadsheet, there are two additional tabs. One tab is for the two Reserve funds and the other is for the capital improvement fund. The Revised Reserve Study, as approved by the Board, recommends the replacement of 11 different items totaling \$861,799

in the General Reserves. These items are listed in 2024 budget reserves tab. The Reserve Study recommends four projects in the Trails Reserve Fund for fiscal year 2024. These four projects total \$208,346.

Total capital expenditures for 2024 are \$379,160. The two projects identified and amounts are according to the capital improvement funding plan. The capital improvement funding plan was reviewed and discussed during a board work session. The board approved the capital funding plan during the September meeting.

In looking at the 2024 budget, we are confident in the numbers provided. I anticipate in the coming work sessions, we will arrive at a final budget that everyone can agree on regarding assessment level, capital funds and reserve funds. We look forward to working with the Finance Committee and the Board over the coming weeks to arrive at a final budget that makes sense fiscally, yet adds value to the Owners investment in our Association.

Observations on the Proposed Budget for 2024

Consideration should be given to the following issues regarding the recreation center.

1. The fees that are charged for use of the center are very low when compared to the level of services that the recreation center offers.

2. The recreation center budget should at minimum be planned for break even and better if there is a small, 5% surplus planned.

3. Since the rec center is experiencing significant capital expenditure needs there should be a separate reserve fund set up for the rec center.

2. Permit fees are not matching expenditures. a review should be done to better match incoming fees and outgoing expenditures.

3. A new reserve study should be performed for trail expediters.

4. Headcount by full time and part time positions should be added to the budget to better understand where staff are.

5. Interest income from Reserve and Capital funds should be reviewed to determine if it should be added to the budget.
